OVERVIEW

J Michael Consulting (JMC) delivers end-to-end informatics expertise for public health laboratories nationwide. With over a decade of experience, JMC supports modernization initiatives that strengthen data integrity, improve workflows, and achieve true interoperability across platforms and partners.

CORE CAPABILITIES

Laboratory System Assessments

- Gap analysis of software, hardware, data flows, and operational processes
- Identify opportunities for modernization and optimization

Acquisition & Procurement Support

- RFI/RFP development, requirements gathering, and vendor evaluation
- Trusted guidance for strategic and compliant decision-making

Technical Assistance & Data Exchange

- HL7 messaging, ETOR (Electronic Test Orders & Results)
- Instrument interfacing
- Custom solutions to connect LIMS, NBS, and national surveillance systems

Training & Education

- Role-based, hands-on training (virtual and onsite)
- HL7 templates, onboarding guides, and toolkits

Bioinformatics & Genomic Surveillance

- NGS workflows, outbreak analytics, and cloud-based tool development
- Driving innovation in public health pathogen detection

System Implementation & Support

- Vendor-neutral LIMS configuration and implementation
- Agile, Scrum, and Waterfall project management
- Post-launch QA and sustainment for systems like OpenELIS (SC DHEC)

Why JMC?

- Deep domain knowledge in LIMS, HL7, bioinformatics, and data exchange
- Proven results in complex, multi-stakeholder environments
- Committed to delivering secure, scalable, and sustainable solutions
