OVERVIEW

J Michael Consulting (JMC) delivers expert support in public health interoperability, helping agencies improve data quality, exchange, and usability across jurisdictions. Our team drives innovation in how public health agencies exchange data using FHIR by leading national efforts like the HL7 Helios FHIR Accelerator.

CORE CAPABILITIES

Data Standards & Terminology

- Proficiency in HL7, LOINC, SNOMED, and national data standards
- Ensures consistency, accuracy, and compliance

Health Data Exchange

- Design and deployment of interoperability between labs, EHRs, and surveillance systems
- FHIR pilot programs for labs and surveillance systems
- APHL Interoperability Technical Assistance

Integration & Interface Development

- Interface implementation for LIMS, EHRs, and public health systems
- ETOR onboarding, configuration, and validation
- HL7 message validation and custom interface development

System Assessments & Technical Assistance

- Evaluation of infrastructure and workflow readiness
- Hands-on modernization support

Training & Capacity Building

- Role-specific training to sustain long-term interoperability
- Practical guidance and workforce development

DIFFERENTIATORS

- 50+ years of combined public health informatics experience
- Certified cloud and interoperability specialists
- CDC, APHL, and CSTE Technical Assistance Programs trusted partner
- Acknowledged for delivering efficient solutions and fostering a culture of excellence
